(1) The College will provide a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter the Royal Military College, Sandhurst, with a view to obtaining commissions in the Indian Army. It is intended for those who wish to make the army their profession in life. The course of study at the College will, however, be such that, should a boy fail in the examination for entrance to the Royal Military College, Sandhurst, he will be in as good a position to pass the University entrance examination as if he had been educated at an ordinary school.

(2) Candidates will be accepted from—

(*a*) Provinces of British India;

(*b*) Indian States.

Nominations will be made by His Excellency the Commander-in-Chief on the recommendation of the Local Government or Administration or the Political officer, as the case may be.

(3) Candidates must be under 12 and over 14 years of age on the 1st December 1928.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with Appendix A to this notification.

(5) The fees will be Rs. 1,000 for each school year and are liable to enhancement hereafter, if circumstances require. The fees payable by candidates who are sons of Indian officers of good service will be determined by His Excellency the Commander-in-Chief in each particular case. These fees will include tuition, messing, school servants, washing and mending, and medical attendance of the

ordinary kind, and, as initial provision, one suit of the uniform to be worn by students when at the College.

Full fees for a College term (January to May or August to December, as the case may be) will be charged whenever a parent or guardian fails to give to the College authorities a full term's notice of the withdrawal of a cadet.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

(5) Parents or guardians of candidates are required to attach to the applications a declaration in the following form :—

"I, _____, father / guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, having made myself acquainted with the fees payable at Dehra Dun and subsequently, at the Royal Military College, Sandhurst, am able and willing to pay the prescribed fees and meet the incidental expenses

"It is my intention to make the Army my son's / ward's profession in life.

Signature of parent or guardian _____."

The estimated expenses of Indian cadets at the Royal Military College, Sandhurst, as recently revised, are published for information as Appendix B to this collection.

(7) Entry to the College will not be open to candidates who are already married, and parents or guardians of candidates are required to furnish a declaration to the effect that their sons or wards are unmarried and that they will remain bachelors while cadets at the College and also while cadets at the Royal Military College, Sandhurst.

(8) One general mess will be maintained. All students will be required to mess together. Special care will be taken that no food is served in the mess which could in any way offend the religious susceptibilities of any student.

(9) All applications should be submitted to the Private Secretary to His Excellency the Governor of Madras (Madras Government's Camp), not later than the 20th November 1928 in the form below. No applications received after the 20th November will be considered.

I. In rule 29 of the said rules, for the word 'insurance' the word 'relief' shall be substituted.

II. For Schedule IV to the said rules, the following schedule shall be substituted, namely :—

SCHEDULE IV.

(*See Rule* 29.)

1. The local Governments of the provinces mentioned below shall, save as hereinafter provided,

make in every year beginning with the financial year 1929–30 provision in their budgets for expenditure upon the relief of famine of such amounts respectively (hereinafter referred to as the annual assignments) as are stated against each :—

	Rs.
Madras	3,00,000
Bombay	12,00,000
Bengal	2,00,000
United Provinces	16,00,000
Punjab	2,00,000
Bihar and Orissa	3,00,000
Central Provinces	4,00,000

Provided that no annual assignment need be greater than is necessary to bring the accumulated total of the famine relief fund up to the amount specified in paragraph 5

2 The annual assignment shall not be expended save upon the relief of famine. Any portion of an assignment which is not so spent shall be transferred to the famine relief fund of the province.

3. The local Government, in making provision in its budget for the annual assignment, shall include in demands for grants such portion of the assignment as is proposed to be expended for the relief of famine. The amount required, over and above the grants voted for the aforesaid purposes, to make up the total of the annual assignment shall not be included in a demand for grant, but shall be provided in the shape of a lump sum allocated for transfer to the famine relief fund.

4. The famine relief fund shall consist of (a) the amount outstanding at the credit of the famine insurance fund heretofore maintained, and (b) the unexpended balances of the annual assignments for each year, transferred to the fund under paragraph 2 of this schedule, together with any interest which may accrue on these balances under paragraph 6 and any recoveries of interest and principal under paragraph 9.

5. The local Government may, in any year, when the accumulated total of the famine relief fund of the province is not less than the amount specified below, suspend temporarily the provision of the annual assignment :—

Bombay	75,00,000
Bengal	12,00,000
United Provinces	55,00,000
Punjab	20,00,000
Bihar and Orissa	15,00,000
Central Provinces	45,00,000

6. The famine relief fund shall form part of the general balances of the Governor-General in Council, who shall pay at the end of each year interest on the average of the balances held in the fund on the last day of each quarter. The interest shall be calculated for the financial year at a rate which shall be 1 per cent less than the rate charged by the Governor-General in Council during the year for advances made to the Provincial Loans Fund. Such interest shall be credited to the fund.

7. The local Government may at any time expend the balance at the credit in the famine relief fund upon the relief of famine.

8. When the balance in the famine relief fund exceeds the amount specified in paragraph 5, the local Government may utilize the excess to meet expenditure on protective irrigation works; in the grant of loans to cultivators, either under the Land Improvement Loans Act, 1883, or under the Agriculturists' Loans Act, 1884, or for relief purposes; or in the repayment of advances from the Provincial Loans Fund, or to meet irrecoverable balances of loans under the said Acts or for relief purposes when such loans have been made from the Provincial Loans Account :

Provided that the excess of the accumulated balance in the fund on the 1st April 1928, over the minimum balance prescribed in paragraph 5 may, in the case of Bombay, Bihar and Orissa and the Central Provinces, be utilized, with the approval of the Governor-General in Council, on objects other than those specified in this paragraph.

9. Loans to cultivators under paragraph 8 shall be made through the Provincial Loans Account and the amount lent shall be repaid with interest to the famine relief fund by equated instalments, the rate of interest being the rate determined under paragraph 6 for the financial year in which the loan was made to the Provincial Loan Account.

10 In case of doubt whether the purpose for which it is proposed to spend any portion of the annual assignment of the famine relief fund or the balance thereof is one of the purposes specified in paragraph 2 of this schedule, the decision of the Governor shall be final.

11. The annual accounts of the annual assignments and of the fund shall be maintained in forms to be prescribed in this behalf by the Auditor General.

12. COTTON CROP OF 1927-28—SECOND FORECAST REPORT.

[On an average of the five years ending 1926-27, the area under cotton in the Madras Presidency has represented 10·3 per cent of the total area under cotton in India.]

The area under cotton up to the end of September 1928 is estimated at 951,600 acres as against 680,300 acres on the corresponding date of last year. There has been an increase of about 40 per cent.

2. The area in the South and the Central districts relates partly to last year's crops and partly to the new crop the sowings of which have commenced. There has been an increase in the area under last year's crops in most of the important districts owing to the early summer showers.

The area in the Deccan has increased from 430,600 acres to 639,000 acres owing to good sowing rains. The main increase is in Bellary.

The variations in the other districts do not call for remarks.

3. The condition of the crop is generally satisfactory in most parts.

4. Figures by districts are given in the statement below:—

SUGARCANE CROP OF 1928—SECOND FORECAST REPORT.

[On an average of the five years ending 1926–27, the area under sugarcane in the Madras Presidency has represented 6·1 per cent of the total area under sugarcane in India.]

The area planted with sugarcane in the Madras Presidency up to the end of September 1928 is estimated at 83,100 acres as compared with 101,300 acres on the corresponding date of last year. There has been a decrease of about 18 per cent.

The reduction in area occurs in most districts and is due to the poor supply in the irrigation sources consequent on the partial failure of the North-East monsoon rains in the previous year and to the low prices for jaggery at the planting time.

2. The crop has suffered from drought to some extent in parts of the Central districts and the South. An attack of red rot and mosaic is reported from the Erode taluk of Coimbatore. The condition of the crop is now fairly good in the other districts and a normal yield is expected if the season is normal in the remaining portion of the growing period. On this basis, the yield is estimated at 212,300 tons of jaggery against 287,400 tons on the corresponding date of last year.

3. Figures by districts are given below :—

GROUNDNUT CROP OF 1928—THIRD REPORT.

[On an average of the five years ending 1926–27, the area under groundnut in the Madras Presidency has represented 41 per cent of the total area under groundnut in India.]

The area sown with groundnut up to the end of September 1928, is estimated at 2,934,000 acres as compared with 2,813,000 acres on the corresponding date of last year. There has been an increase of about four per cent

2. There has been an increase in the Circars, Deccan (Cuddapah excepted), Nellore, Salem, Coimbatore, and Trichinopoly owing to good sowing rains and fairly remunerative prices in recent years. The greatest increases are in Guntur, Bellary, Anantapur, and Salem. In Guntur and Bellary, the area sown so far has exceeded even the final area in any of the previous years. In Guntur, the area has rapidly risen from 2,556 acres in 1918–19 to 191,000 acres in the current year.

The reduction in area in the other districts is due to the late season

3. The harvesting of the summer crop and early crop has been completed.

The condition of the main crop is generally satisfactory except in parts of the Central districts and the South where it has been affected by drought. An attack of hairy caterpillars is reported from parts of the taluks of Salem, Tiruchengode, and Gudiur.

THE GINGELLY CROP OF 1928-29—SECOND FORECAST REPORT

[On an average of the five years ending 1926-27, the area under gingelly in the Madras Presidency has represented 12·7 per cent of the total area under gingelly in India.]

The area sown with gingelly up to the end of September 1928 is estimated at 467,300 acres as compared with 557,700 acres estimated at the corresponding date of last year. There has been a decrease of about 20 per cent.

The reduction in area occurs in all districts except Chittoor and Malabar and is due mainly to inadequate sowing rains as compared with the previous year. The greatest decreases are found in Anantapur, Chingleput, Salem, and Coimbatore.

2. The early crop in the Circars has been almost harvested. In Ganjam and Vizagapatam, the crop was affected by heavy rains; in Godavari (East and West), the crop suffered from drought. The yield was therefore below normal in these districts. In Kistna and Guntur, the yield was normal.

The main crop has suffered from drought to some extent in parts of the Carnatic and Central districts and the South. The condition of the crop is fairly satisfactory in the Deccan and on the West Coast.

PADDY CROP OF 1928-1929—FIRST FORECAST REPORT.

[On an average of the five years ending 1926-27, the area under paddy in the Madras Presidency has represented 13·1 per cent of the total area under paddy in India.]

The area sown with paddy up to the end of September 1928 is estimated at 7,250,000 acres as compared with 7,438,000 acres estimated on the corresponding date of last year. There has been a decrease of about 2·5 per cent.

2. In Tanjore, the area has fallen from 683,000 acres to 486,000 acres owing to the late season and the irregular supply of water in the channels. In East Godavari, the area has risen from 515,000 acres to 580,000 acres. The variations in the other districts are small.

3. First crop paddy has been harvested on the West Coast. The yield is normal.

The harvest of paddy has commenced in Tanjore, Madura, and Tinnevelly. The yield is expected to be below normal as the crop has suffered from water scarcity.

The crop has been suffering from drought in Salem and Trichinopoly. The condition of the crop is fairly satisfactory in the other districts.

The Standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain-gauge is two feet from the ground. The wind, rain and general weather registered are for the current civil day—from midnight to midnight.

The total quantity of rain collected since January 1st is 24·09 inches, the average due for the same period being 23·02 inches.
